CITATION LONGITUDE

Scan to
explore more.

The Cessna® Citation Longitude® aircraft is the flagship of the Citation® fleet. Masterful craftsmanship exudes luxury throughout the cabin. Intuitive technology mobilizes productivity. No other business jet in the super-midsize class gives you more range, greater payload or higher cruise speed at a lower direct operating cost.

THE MOST COMFORTABLE CABIN IN ITS CLASS

Engineered to give you the **quietest**, most comfortable cabin in its class. The spacious cabin and double-club seating afford up to **20 percent** more legroom than the competition. Designed and built in-house, the seats recline to lay fully flat and are crafted for smooth mobility as you work or relax in flight.

RESTED AND READY TO GO

Arrive refreshed, thanks to a low cabin altitude that does not exceed 4,950 ft at 41,000 ft cruise altitude.

READY FOR REFRESHMENTS

The **best-in-class** wet galley with large potable water tank enhances cabin service with plenty of room for food preparation.

LARGE CAPACITY STORAGE

The large, walk-in baggage compartment has a storage capability of up to 1,000 lb and is accessible throughout the entire flight.
